

# travelcare essentials

# travelcare essentials

Travelcare Essentials is a smart line, designed for single use, basic in packaging but very practical. The Stand Up sachet, to have an effective exposure, is printed both sides, one side being totally white and the other using subtle pastel colours.

The customer has the choice of which side to present, an aspect that distinguishes the range and makes it adaptable to environments of any kind.

Equally important is the advice for use:

**for your hair & body**  
**for your body**  
**for your hair**  
**for your skin**  
**for your hair repair**

The collection includes Stand Up easy opening sachets with cleansers for body and hair, body lotion and a small flow-pack soap. Completing the range, the personalised amenities pochette.

The Stand Up sachet is a better solution for the environment: we save 70% of primary packaging material respect a common 20 ml bottle.
